

Quality Policy Statement

Issue 6, 13th April 2022

Steel Dynamics Ltd is committed to providing customers with products and services which meet or exceed their expectations, and which comply with the requirements of the ISO 9001:2015, BS ISO 19443:2018 and AS 9100:2016 (rev D) standards as applicable.

The company has committed to continual improvement of the Quality Management System, by establishing and reviewing suitable and measurable quality objectives and Key Performance Indicators during regular Management Review meetings.

Risk and opportunity is considered and effectively managed in all areas of the business, together with the needs and expectations of interested parties, and the context of the organisation. Action required to improve performance or enhance relationships will be considered and carefully applied.

The defined scope of the Quality Management System is: Stockholding and supply of carbon steels, stainless steels, nickel alloys, aluminiums and titaniums, including processing by laser, water jet, hi-definition and plasma profile cutting, and machining of components to customer specification.

The company is committed to compliance with applicable statutory, regulatory and customer requirements, to identifying and carefully managing items important to nuclear safety (ITNS), and to ensuring that nuclear safety is not compromised by other priorities.

The requirements of the documented Quality Management System are mandatory and will be maintained by all who act, in whatever capacity, on behalf of the company.

The Directors of the company accept responsibility for communicating the company's commitment to quality to all employees, and for ensuring that the Quality Policy is implemented, understood and maintained. All members of staff are made aware of the critical role they play in helping to maintain our very high levels of customer satisfaction.

Mr Danny McKinley
Commercial Director
